About The Workshop

- By knowing how to handle 2 suited hands we can better compete for part score and game.
- The first step in hand valuation is to count high card points. Experienced players also value hands according to distribution.
- Two suited hands are more valuable than the high cards would indicate.
- This workshop shows how to take advantage of your good luck when you have extraordinary distribution.
- You will enhance your understanding of Unusual Notrump, Cappelletti and Michaels Cuebid.
- Players who would like to modernize their game will find the workshop essential.
